About Us

Climatrol Corporation is an Indian firm specialized in the design, development and manufacture of refrigeration equipment and Drinking Water Coolers for all applications since 2009. Typical projects undertaken by Climatrol are refrigerated cold rooms using PUF panels and display showcases for supermarkets. We have in house manufacturing capability for PUF panels up to 6.5 m long as well as the refrigeration unit coolers and condensing units. We design our equipment for high ambient conditions prevalent in India. Our systems may be used for storage of perishable foods, medicines, chemicals, or any other product that needs to be kept at a medium temperature, +2°C, or a low temperature, -22°C.
